# Juliette Monsel

## Researcher in theoretical physics

Gothenburg, Sweden

⊠ monsel@chalmers.se

1 j4321.github.io/juliette.monsel

1 0000-0002-4965-6794

Nationality: French

Research interests: stochastic thermodynamics, quantum open systems, quantum optics, optomechanics and electronic transport.

#### Education

2020 **Qualification**, *National Council of Universities (CNU)*, France.

Certificate allowing me to apply to "Maître de Conférence" positions, permanent Assistant Professor positions with an important teaching component, at French universities.

2019 **Ph.D.**, *Université Grenoble Alpes*, France. Theoretical Physics.

2016 **M.Sc.**, École Normale Supérieure de Lyon, France. Major: Physics, Mention: highest honors

2014 **B.Sc.**, *École Normale Supérieure de Lyon*, France. Major: Physics, Mention: highest honors

2011 – 2013 **Classe Préparatoire**, *Lycée La Martinière Monplaisir*, Lyon, France. Two-year intensive course preparing for the competitive entrance examinations to French leading institutions of higher education. Track: Mathematics-Physics.

## Research experience

2020 – current **Postdoctoral researcher**, Department of Microtechnology and Nanoscience, Chalmers University of Technology, Gothenburg, Sweden.

Advisor: Janine Splettstoesser. Quantum thermodynamics.

- Studied thermodynamic of electronic transport
- Analyzed optomechanical cooling in a thermodynamic perspective

2019 – 2020 **Postdoctoral researcher**, *Institut Néel*, Grenoble, France.

(4 months) Advisor: Alexia Auffèves. Quantum thermodynamics and optomechanics.

- Explored the potential of carbon nanotubes for thermodynamic experiments
- Studied stochastic thermodynamics with Kerr resonators

2016 – 2019 **Doctoral researcher**, *Institut Néel*, Grenoble, France.

(3 years, 2 Supervisor: Alexia Auffèves. Quantum thermodynamics and optomechanics.

 Demonstrated the potential of hybrid optomechanical systems and one-dimensional atoms to experimentally explore quantum thermodynamics

• Proposed methods to define and measure work in the quantum regime

2016 Master intern, Institut Néel, Grenoble, France.

(4 months) Supervisor: Alexia Auffèves. Fluctuation theorems in a hybrid optomechanical system.

2015 Master intern, Institut Néel, Grenoble, France.

(3 months) Supervisor: Alexia Auffèves. Hybrid optomechanical system in the ultra-strong coupling regime.

2014 **Bachelor intern**, *Institut Lumière Matière*, Lyon, France.

(2 months) Supervisor: Julien Laverdant. Experimental control of polarization with a spatial light modulator.

## Teaching experience

2017, 2018 **Teaching Assistant**, *Université Grenoble Alpes*, France.

(64 hours/year)

Newtonian mechanics for first year undergraduates.

- ullet Supervised students during tutorials (2×1,5 hours/week,  $\sim$  30 students) and practical work (3 hours/week,  $\sim 15$  students)
- Graded examinations and practical work reports
- Wrote exercises for the examinations

2013 – 2014 **Tutor for homework assistance**, *Trait d'Union program*, Villeurbanne, France. (7 months) Took part in a homework assistance program for students from high schools in disadvantaged areas (2 hours/week).

## Student supervision

2020 - current Assistant supervisor of a Ph.D. student at Chalmers University of Technology.

Apr. – Jul. 2022 Co-supervisor of a master student from École Normale Supérieure de Lyon (France) at Chalmers University of Technology for a four-month project.

Oct. 2021 – Jul. Co-supervisor of a master student from University of Regensburg (Germany) at

2022 Chalmers University of Technology.

2016 Informal co-supervisor of a first-year master student during his two-month internship at the Institut Néel, Grenoble, France.

## **Training**

- 2017 How to develop as a teacher, Doctoral school of Physics, Grenoble, France. Two-day training program on communication and group animation techniques for teaching.
- 2016 2019 Research and Higher Education (RES) label, Doctoral school of Physics, Grenoble, France.

Teaching oriented Ph.D. program leading to the production of a portfolio documenting the development of my teaching and research skills (in French): http: //juliette-monsel.byethost15.com.

2016 Introduction to the profession of teacher-researcher, Doctoral school of Physics, Autrans, France.

Three-day workshop on topics related to teaching at the university.

## Awards and Grants

- 2022 **Travel grant** from *Chalmers Foundation* to go to Vienna for a research visit and the annual Quantum Thermodynamics Conference in July 2023.
- 2020 **Spinger Thesis Award**, recognizing outstanding Ph.D. research.
- 2016 **Ph.D. grant** from the *CFM Foundation for Research*.

#### Publications

## **Preprints**

2022 J. Tabanera-Bravo, F. Vigneau, J. Monsel, K. Aggarwal, L. Bresque, F. Fedele, F. Cerisola, G. A. D. Briggs, J. Anders, A. Auffèves, J. M. R. Parrondo, N. Ares, Stability of long-sustained oscillations induced by electron tunneling. arXiv: 2211.04074.

#### **Articles**

- 2023 <u>J. Monsel</u>, J. Schulenborg, J. Splettstoesser, "Non-geometric pumping effects on the performance of interacting quantum-dot heat engines," *Eur. Phys. J. Spec. Top.*, 1–6.

#### **Books**

2020 <u>J. Monsel</u>, *Quantum Thermodynamics and Optomechanics* (Springer Theses, Recognizing Outstanding Ph.D. Research). Springer International Publishing.

#### Conferences and seminars

#### Invited talks

- 2022 "Geometric energy transport and refrigeration with driven quantum dots," *Workshop on Geometric Resources for Quantum Engineering II*, invited by Diego Frustaglia, University of Seville, Spain, Nov. 24 25.
  - "Stochastic entropy production in electron transport through quantum dots," *Quantum Energetics Workshop*, invited by Alexia Auffèves, Institut Néel, Grenoble, France, Jun. 7.
- 2019 "An autonomous quantum machine to measure the thermodynamic arrow of time," *Workshop on Quantum Networks and Non-equilibrium Systems*, invited by Andrew Briggs and Natalia Ares, Obergurgl, Austria, Jan. 16 19.

#### Contributed talks

- 2023 "Role of nonequilibrium fluctuations and feedback in a quantum dot thermal machine," *Quantum Energy Initiative Workshop (QEI2023)*, Singapore, Nov. 20 24.
  - "Dissipative cavity optomechanics with a suspended frequency-dependent mirror," DPG Spring Meeting of the Atomic, Molecular, Quantum Optics and Photonics Section (SAMOP), Hannover, Germany, Mar. 5 10.
  - "Ultrastrong coupling between electron tunneling and mechanical motion," Information as Fuel FQXi workshop, Obergurgl, Austria, Feb. 3 8.
- 2021 "Optomechanical cooling with coherent and squeezed light: the thermodynamic cost of opening the heat valve," *Quantum Thermodynamics Conference* (QTD2021), Online (Genève, Switzerland), Oct. 4 8.
  - "Optomechanical cooling with coherent and squeezed light: the thermodynamic cost of opening the heat valve," *Condensed matter days (JMC)*, Online (Rennes, France), Aug. 24 27.
  - "Optomechanical cooling with coherent and squeezed light: the thermodynamic cost of opening the heat valve," *Thermodynamics and Information in the Quantum Regime*, Online, Jul. 7-9.
  - "Optomechanical cooling with coherent and squeezed light: The thermodynamic cost of opening the heat valve," *Joint European Thermodynamics Conference*, Online (Prague, Czech Republic), Jun. 14 18.
- 2020 "The energetic cost of work extraction," *Quantum Thermodynamics Conference* (QTD2020), Online (Barcelona, Spain), Oct. 13 17.
- 2019 "An autonomous optomechanical energy converter," *Annual Meeting of the GDR MecaQ (French research network on Quantum Optomechanics, Nanomechanics)*, Palaiseau, France, Oct. 3 4.
  - "An autonomous quantum machine to measure the thermodynamic arrow of time," Quantum Thermodynamics Conference (QTD2019), Espoo, Finland, Jun. 23-28.
  - "Measuring the arrow of time in a hybrid optomechanical system," *II Workshop on Quantum Information and Thermodynamics*, Natal, Brazil, Mar. 11 22.
- 2018 "Energy conversion in a hybrid optomechanical system: Laser-like behavior and cooling," *Condensed matter days (JMC)*, Grenoble, France, Aug. 27 31.
- 2017 "Fluctuation theorems in a hybrid optomechanical system," Annual colloquium of the GDR IQFA (French research network on Quantum Engineering, from Fundamental Aspects to Applications), Nice, France, Nov. 29 Dec. 1.
  - "Measuring the arrow of time in a hybrid optomechanical system," VI Quantum Information Workshop, Paraty, Brazil, Aug. 21 25.
  - "Thermodynamics and hybrid optomechanical system," Congress of the French Physical Society (SFP), Orsay, France, Jul. 3-7.

#### Invited seminars

- 2023 "Optomechanical cooling with coherent and squeezed light and frequency-dependent mirrors: The thermodynamic cost of opening the heat valve," Seminar, invited by Mario Ciampini and Nikolai Kiesel, University of Vienna, Austria, Jul. 13.
  - "Optomechanical cooling with coherent and squeezed light and frequency-dependent mirrors: The thermodynamic cost of opening the heat valve," *Seminar, invited by Martin Bowen*, Institute of Physics and Chemistry of Materials of Strasbourg, CNRS Unistra, France, Apr. 12.
  - "Energy transport and refrigeration with driven quantum dots," *Seminar, invited by Ville Maisi*, Center for Nanoscience, Lund University, Sweden, Mar. 31.
  - "Optomechanical cooling with coherent and squeezed light," *Seminar, invited by Romain Albert, in Gerhard Kirchmair's group*, Institute for Quantum Optics and Quantum Information, Innsbruck, Austria, Feb. 8.
- 2022 "Geometric energy transport and refrigeration with driven quantum dots," *Seminar, invited by Natalia Ares*, Department of Engineering, University of Oxford, UK, Apr. 8.
- 2021 "Quantum thermodynamics," *SmallTalks [about Nanoscience]*, Chalmers University of Technology, Gothenburg, Sweden, Dec. 6.
  - "Optomechanical cooling with coherent and squeezed light," *UniKORN Seminar Series*, Online, Nov. 3.
  - "Optomechanical cooling with coherent and squeezed light: The thermodynamic cost of opening the heat valve," *NanoThermodynamics seminar, invited by Peter Samuelsson*, Online (Lund University), Mar. 19.
- 2019 "Thermodynamics of hybrid optomechanical systems," *Seminar, invited by Janine Splettstoesser*, Department of Microtechnology and Nanoscience, Chalmers University of Technology, Gothenburg, Sweden, Sep. 11.
- 2018 "Fluctuation theorems in a hybrid optomechanical system," *Seminar, invited by Natalia Ares*, Department of Materials, University of Oxford, UK, Mar. 7.

#### Contributed posters

- 2023 "Role of nonequilibrium fluctuations and feedback in a quantum dot thermal machine," Yearly workshop of the Area of Advance Nano, Tanum Strand, Sweden, Aug. 21-23.
  - "Role of nonequilibrium fluctuations and feedback in a quantum dot thermal machine," Quantum Thermodynamics Conference (QTD2023), Vienna, Austria, Jul. 17 21.
- 2022 "Geometric energy transport and refrigeration with driven quantum dots," *A nano focus on quantum materials*, Chalmers University of Technology, Gothenburg, Sweden, Nov. 28 29.
  - "Geometric energy transport and refrigeration with driven quantum dots," *Yearly workshop of the Area of Advance Nano*, Varberg, Sweden, Aug. 22 24.

"Geometric energy transport and refrigeration with driven quantum dots," Frontier of Quantum and Mesoscopic Thermodynamics, Prague, Czech Republic, Aug. 1-6.

"Geometric energy transport and refrigeration with driven quantum dots," *Quantum Thermodynamics Conference (QTD2022)*, Online (Belfast, UK), Jun. 27 – Jul. 1.

2021 "Geometric energy transport in time-dependently driven quantum dots," *QuESTech Final Conference*, Marstrand, Sweden, Nov. 9 – 10.

"Geometric energy transport in time-dependently driven quantum dots," *Excellence Initiative Nano Poster Day*, Chalmers University of Technology, Gothenburg, Sweden, Oct. 26.

2020 "Optomechanical cooling efficiency: The cost of turning a valve," *Quantum Technology International Conference*, Online (Barcelona, Spain), Nov. 2 – 4.

"The energetic cost of work extraction," *Workshop on Prospects of Ultrastrong light-matter interactions*, Gothenburg, Sweden, Sep. 13 – 17.

2017 "Measuring the arrow of time in a hybrid optomechanical system," *VI Quantum Information School*, Paraty, Brazil, Aug. 14 – 18.

"Measuring the arrow of time in a hybrid optomechanical system," *Quantum Thermodynamics Conference (QTD2017)*, Oxford, United Kingdom, Mar. 13 – 17.

## Service to the community

Reviewer Phys. Rev. Lett. (2023), Sci. Rep. (2022), Phys. Rev. A (2021 – 2023), J. Stat. Mech. Theory Exp. (2021), Phys. Rev. E (2021, 2022), J. Phys. A Math. (2021), New J. Phys. (2020), Commun. Phys. (2020)

Scientific outreach Speaker and guide (2016 – 2019) at the "Fête de la Science", a yearly national French event during which scientific institutions promote science through animations and laboratory tours aimed at high school students and the general public.

## Volunteer experience

2020 – current **Cykelköket**, Gothenburg, Sweden.

The "Bike kitchen" is an open Do-It-Yourself bicycle workshop.

- Help people and taught them how to repair their bikes
- Take part in the administration of the workshop as a board member since Sep. 2020
- 2017 2020 uN p'Tit véLo dAnS La Tête, Grenoble, France.

Nonprofit self-repair workshop aiming at teaching bicycle mechanics and promoting bike riding.

- Learned bicycle mechanics by dismantling and repairing bikes for the association
- Explained to members of the association how to repair their bikes
- Took part in meetings and helped organize events as a member of the board from Sep. 2018 to Feb. 2020

Skills

Languages

English fluent

Italian good comprehension (B2)

French native speaker

Swedish currently learning (B1)

Computer

Programming Python, Git, Matlab, C++

Operating systems Linux, Windows, MacOS

Interests

Bicycle My main mean of transportation since 2017, volunteer mechanic and board

member in Do-It-Yourself bicycle workshops.

Programming Open-source software development with Python, answering questions on Stack-

Overflow.
